

Working Towards the Convergence Programmes

Newsletter 7: 1st December 2006

This is part of a fortnightly series of newsletters that will help explain the process and progression towards the Convergence programmes for Cornwall and the Isles of Scilly. The newsletters will contain the most up to date information about Convergence as it evolves over the coming months. [Updated information will appear in blue.](#)

Introduction

Dear Colleague

[Cornwall and the Isles of Scilly well in place for achieving the Lisbon objectives!](#)

A more strategic approach to Cohesion Policy is key to achieving the Lisbon goals

[As the second largest budget in the EU \(second only to the Common Agriculture Policy\) the Cohesion Policy is seen as one of the key funding tools for getting the EU Lisbon Strategy \(turning the EU into the most competitive knowledge-based society of the world\) back on track. In this new scenario, for 2007-2013 a newly introduced more "strategic approach" to Cohesion Policy aims to ensure its connection with the delivery of the revised Lisbon Agenda goals, especially in areas such as Cornwall and the Isles of Scilly, which is part of the new convergence priority of the EU Structural Funds.](#)

and the Convergence Operational Programme will play a key role.

[Under this "Lisbonised" Cohesion Policy, Cornwall and the Isles of Scilly's Operational Programme 2007-2013 \(the strategic document developing expenditure and policy priorities on the basis of EU guidelines and the UK's NSRF\) will have a key role in responding to the "Lisbon focused" priorities set out at EU level, both within the cohesion framework and the so-called "Lisbon earmarking" for expenditure.](#)

There will be an emphasis on innovation, knowledge economy, SMEs, enterprise, entrepreneurship, job creation and stimulating growth.

[In this context, ensuring connectivity, achieving sustainable growth and employment, boosting research & innovation and skills, and encouraging entrepreneurship could be highlights and key cornerstones for Cornwall and the Isles of Scilly's strategic development for 2007-2013. Opportunities to lead or participate in EU funded projects on these different fields of action will be available for Cornwall and the Isles of Scilly not only through EU Cohesion Policy \(including territorial cooperation projects\) but also through \(non-structural fund\) EU Programmes. Actions pursued by these other Programmes have also been refocused on a Lisbon-approach. This means emphasis on innovation, knowledge economy, supporting SMEs, enterprise, entrepreneurship, creation of jobs and stimulating growth.](#)

South West UK Brussels Office will continue to assist and advise.

[This next programming period 2007-2013 promises to be full of opportunities for Cornwall and the Isles of Scilly and the rest of the South West. From the South West UK Brussels Office we will continue assist and advise Cornwall and the Isles of Scilly to make the best out of these programme and policy developments!](#)

- NSRF published* On 23 October the Government published its response to the consultation on the National Strategic Reference Framework (NSRF), outlining broad priorities, management arrangements and funding allocations for ERDF and ESF programmes 2007-2013.
- What is the budget for Convergence?* The Cornwall and Isles of Scilly Convergence Programme will receive €579m (approx. £389m) and the Government proposes a 70:30 split between ERDF and ESF funding. However, the details of the ERDF and ESF Operational Programmes will determine the final splits.
- Management arrangements for Convergence ERDF* The South West RDA will take the lead in the management of Cornwall and the Isles of Scilly's ERDF Convergence Programme. However, the details of the management and delivery arrangements have yet to be clarified and further information will be contained within the ERDF Operational Programme.
- Management arrangements for Convergence ESF* The draft ESF Operating Programme, which is currently out for consultation, proposes that the Managing Authority for the ESF Programme in England 2007-13 will be the European Social Fund Division (ESFD) of the Department for Work and Pensions, overseen at a national level by a Programme Monitoring Committee. Most of the delivery of the programme will take place at regional level. The Regional Skills Partnerships will have a leading role in the development of regional ESF strategies and may be assisted by regional ESF committees. The Convergence area of Cornwall and the Isles of Scilly will have its own strategy and committee.

<i>The role of Strategy and Action</i>	<p>Strategy and Action – the overarching economic regeneration strategy for Cornwall and the Isles of Scilly - will inform the ERDF and ESF Convergence programmes. What we don't know about Convergence

Details of the Convergence Programmes.

Although we know that there will be ERDF and ESF Convergence programmes for Cornwall and the Isles of Scilly – the decision was made when the European Union's Member States agreed the EU budget in December 2005 – we still do not know the exact details of the programmes.

The recently published NSRF indicates that the South West RDA will have an important role in managing the ERDF Programme; more details are expected to be included in the ERDF and ESF Operational Programmes.

For Objective One, the role of Managing Authority for ERDF, ESF and EAGGF has been Government Office for the South West and the Marine Fisheries Agency for FIFG.

What activities will be eligible for funding?

The NSRF outlines broad priorities for ERDF and ESF in the UK, but the detailed priorities for Cornwall and the Isles of Scilly's will be contained in the ERDF and ESF Operational Programmes which are currently being developed and will be consulted on over the coming months.

More detailed information about Convergence, links to key organisations and websites can be found in the 'Towards Convergence' section of the Objective One website www.objectiveone.com
